

Excel Importer/ Exporter

This magnolia module - in combination with the Magnolia CMS software, version 6.x - provides you with the following functions:

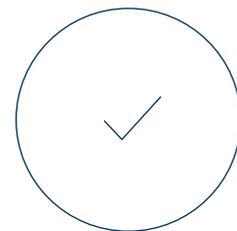

- Export any content information from Magnolia CMS to an excel spreadsheet.
- Import excel spreadsheets to Magnolia CMS based on the exported data.
- The imports and exports are based on xls files. No conversion from CSV to XLS needed.
- The actions could be configured on the fly through magnolia's backend. No development needed. (YAML Configuration)
- You can decide which properties are exported or imported. They can even differentiate between export and import.

Example:

You want to export all names of your contact app inside magnolia.

```
1 filename: "ContactsExport"
2 exportnodetype: "mgnl:contact"
3 exportfields:
4   field2:
5     name: firstName
6     type: String
7     displayTitle: Firstname
8   field3:
9     name: lastName
10    type: String
11    displayTitle: Lastname
```

Benefits

Strategic Consulting in:

- Magnolia
- Design
- Apps (iOS & Android or Progressive Web App)
- Cloud Hosting

- Headless Systems with DXP based on Basis Magnolia & Angular
- Magnolia Sales Automation based on SAP or Salesforce

Additional benefits

Now you can change all the necessary things in an excel sheet.

After that you define the import and you are able to import the changes back into magnolia through the magnolia action bar again.

```
1 importnodetype: "mgnl:contact"
2 importfields:
3   field1:
4     name: firstName
5     type: String
6     column: 1
7   field2:
8     name: lastName
9     type: String
10    column: 2
```

About Arvato Systems

Global IT specialist Arvato Systems supports major companies through digital transformation. About 3,000 staff in over 25 locations epitomize in-depth technology expertise, industry knowledge and focus on customer requirements.

Working as a team, we develop innovative IT solutions, transition our clients into the Cloud, integrate digital processes and take on IT systems operation and support.

As a part of the Bertelsmann-owned Arvato network, we have the unique capability to work across the entire value chain. Our business relationships are personal; we work with our clients as partners, so that together we can achieve long-term success
