

Enable Digital Transformation in Pharmaceutical Manufacturing with PRECTAVI®

Platform for Data Management & Analysis

PRECTAVI® is a collaborative effort between regenold GmbH and Arvato Systems aimed at driving digital transformation in the pharmaceutical manufacturing industry. Its key objective is to improve quality and boost productivity. Through ensuring regulatory compliance, such as the continuous demonstration of process validity and stability ("state of control") and the associated generation of essential reports (e.g., CPV reports), PRECTAVI® enables optimization of the entire manufacturing process. This solution facilitates the automation and scalability of document digitization, data analysis and report generation leading to a significant reduction in manual labor and cost savings.

What sets PRECTAVI® apart is its seamless integration of all necessary steps into one single, user-focused solution.

regenold GmbH is a family-owned Germany-based regulatory services provider (pharma, medical devices, legal representation, digital health) with extensive in-house CMC expertise and a global network of regulatory experts covering more than 90 countries.

Arvato Systems has many years of experience in creating and operating (SaaS) solutions for the pharmaceutical industry and furthermore contributes with its excellent technology know-how and extensive experience in the fields of data management and AI.

Global IT specialist Arvato Systems supports major companies in Digital Transformation. About 3,100 staff in over 25 locations stand for in-depth technology expertise, industry knowledge, and focus on customer requirements. Working as a team, we develop innovative IT solutions, transition our clients into the Cloud, integrate digital processes, and take on IT systems operation and support. As a part of the Bertelsmann-owned Arvato network, we have the unique capability to work across the entire value chain. Through our strong strategic partner network with global top players such as AWS, Google, Microsoft, and SAP, we continuously strengthen our know-how and leverage the most advanced technology. We Empower Digital Leaders.
