

# Commerce Spotlight

**AS** ARVATO  
SYSTEMS

Dear Ladies and Gentlemen,

Whether in the warehouse or in day-to-day communication, efficient processes are crucial for staying competitive. In this May edition of Commerce Spotlight, we take a closer look at where ERP systems reach their limits in warehouse operations and how companies can take action in time.

We also share how MISUMI Europe successfully moved from a flood of manual emails to smart automation using a cloud-native platform on AWS.

Enjoy reading!

Kind regards,

Your Commerce Spotlight-Team

PS: **Service Provider Awards 2026:** We have been nominated again and would appreciate your vote in the categories "AI as a Service Provider," "Managed Security Service Provider," and "Managed Hosting Service Provider" until May 25. Click [here](#) to vote. (German-language)

## NEWS & TRENDS

---

### ERP in the Warehouse

Many companies rely on their ERP system as a central control instance, also for warehouse processes. However, everyday operations often show that ERP reaches its limits in the warehouse. Those who recognize these warning signals can take countermeasures.
